

Menu Screens Update

At A Glance

Below please find the v3.3a updates for the DynEd Kids Courseware, *Let's Go* and *DynEd Kids Course*. Additional information can be found in the revised Teacher's Guides for both courses and in the Placement Test Level Guide.

Let's Go Updates

- The *Let's Go* menu screen now has the same clear navigation features all DynEd courses do. New look, same content.
- Updated course menus make it easier for students to see their progress:
 - Direct access to the Mastery Test when it opens.
 - Obvious study path with clear indicators of open and closed units.
 - Locked items in gray which can be clicked to determine how they will unlock automatically.
 - Completed units will be indicated with a checkmark.
- All 8 units of each level are now visible at a glance.
- Kid-friendly control bar icons to better guide students.
- New Study Score emoticon appears directly on the main screen, with one-click access to the Tutor messages.
- More precise study path limited to 2 units at a time.
- Opening and Time-Out screen graphics have been updated.
- Kid-friendly stars show progress through the unit instead of completion percentage.
 - 1 star = 25% completion of lesson
 - 2 stars = 50% completion of lesson
 - 3 stars = 80% completion—the lesson is now complete

Please note: When students view their Study Records or when teachers consult the Records Manager, completion of units and lessons will still be displayed as percentages.

- With the exception of the first open unit, the Game lessons remain locked until the student has earned two stars in each of the other four lessons. *Please note: Students must earn two stars in all five lessons to open the next unit.*

DynEd Kids Course Updates

- The Level menu screen has been redesigned.
- Locked and Unlocked items are now easier to view, and are similar to other DynEd courses.
- *Percentage Completion* now appears as a percentage on the unit tiles, consistent with other DynEd course screens.
- More precise study path limited to 2 units at a time.
- A Mastery Test icon has been added to the course and is the same as in other DynEd courses that have Mastery Tests.
- Course content is unchanged.
