

English Learning in Half the Time

get to your goals faster and effectively

Advanced Testing Tools 2

DynEd's technology-assisted Placement Tests evaluate your skill level and assign you to the level that is right for you. Teachers evaluate your progress and measure advancement towards your Certification goals using DynEd's Mastery Tests. DynEd's advanced Speaking Test measures your oral fluency.

Blended Learning 4

By combining multimedia course study with classroom sessions, you and your teachers will be able to focus on results! DynEd's blended-learning models allow teachers to act as facilitators so that you can practice and personalize the language in a way that leads to fluency faster.

Measure Your Progress 6

DynEd's award-winning Records Manager tracks every mouse click you make, and analyzes and makes recommendations to you and your teachers that will greatly improve your language learning process.

Mobile Tools 8

As a DynEd student you have access to a fully mobile-enabled platform that allows you to study, assess your progress, interact with your friends and learn more about the learning system while on your mobile device.

1 Goal Based Learning

DynEd courseware is designed to get you to meet your English learning goals quickly and easily. Our course menu screens provide you with all the information you need to make each study session as effective as possible.

3 Your Own Learning Path

DynEd provides you with an individualized learning path based on your initial skill level. Our advanced technology ensures that you will always be studying at the level that is right for you—never too hard or too easy.

5 Sequenced Content

DynEd's content is carefully sequenced so that you follow the four-skill path that is most conducive to language learning: listening and speaking first, then reading and writing.

7 Real-time Feedback

DynEd's Intelligent Tutor provides you with real-time, qualitative feedback that continuously helps you maximize the outcome of your DynEd study time. You can find your iTutor messages on your course screen, by clicking on the lightbulb icon.
