

Develop Interactive Listening Skills

Get intensive listening practice with *Dialogue*, a supplementary English course focused on televised interviews on topics of general interest.

Originally broadcast on China Central Television (CCTV), *Dialogue's* advanced content helps higher-level learners prepare for university lectures, discussion groups, conferences, and international business presentations in English.

Level

DynEd PT Level: 2.5

CEFR Levels : C1 and C2

Features

- 3 authentic CCTV Interviews
- Interactive listening exercises
- Voice Record and Playback
- Records Manager
- Intelligent Tutor
- Extensive Teacher's Guide with class suggestions and handouts
- Windows, Mac, iOS and Android versions

The DynEd Advantage

Developed in cooperation with CCTV News, this video series uses real-world content to acquaint students with different styles of English as well as a variety of cultural perspectives. Attracting international leaders in government, business, and education, *Dialogue* provides a forum for cross-cultural communication and perspectives.

Combined with DynEd's unique interactive design, these captivating discussions allow learners to control the pace of the *Dialogue* interview. Students can stop and repeat sentences, take notes, record and monitor responses, and watch how participants interact with each other.

By studying with *Dialogue*, learners will:

- Build advanced listening comprehension skills
- Develop oral presentation and summarization skills
- Increase their command of sentence structure and effective sequencing of ideas

Contents

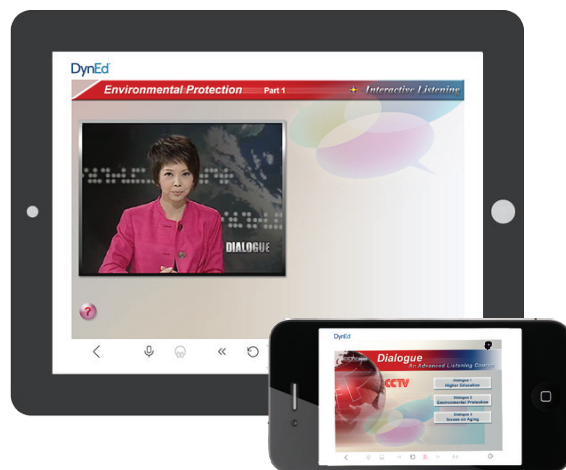

Each of the three interviews represents approximately seven hours of study in three parts: Presentation, Interactive Listening, and Language Skills. The language is authentic and is spoken at a natural pace, with false starts and overlapping from the speakers.

Discussion Topics

- Higher Education in a Globalized Era
- Environmental Protection
- Issues on Aging

Lessons Types

Presentation	General comprehension – listening for main ideas, taking notes
Interactive Listening	Detailed listening skills and ability to synthesize information from different parts of a conversation
Language Skills	Focus on vocabulary and idioms and grammar review

Testing Tools

Placement Test

DynEd's Placement Tests position students at their appropriate starting point within DynEd's courses. The process is quick and easy, thanks to DynEd's computer-adaptive testing technology.

Speaking Test

Using state-of-the-art speech recognition technology, DynEd's Speaking Test quickly and automatically measures students' oral proficiency, eliminating the need for expensive native language raters.

Intelligent Tutor

DynEd's Intelligent Tutor provides students with real-time, qualitative feedback that continuously helps them maximize the outcomes of their DynEd study time.
