

DynEd Pro Courseware Installation Guide - iOS

STEP 1

Finding and Downloading the DynEd Pro iOS Installation Files

Option 1

Scan the QR code to download the DynEd Pro App.

Option 2

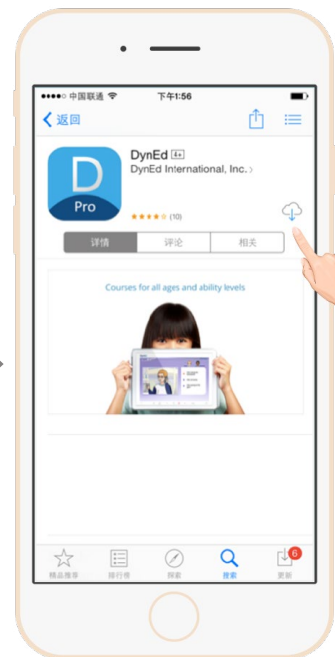

Go to the Apple store, search for "dyned," and download the DynEd Pro App.

Go to the Apple store.

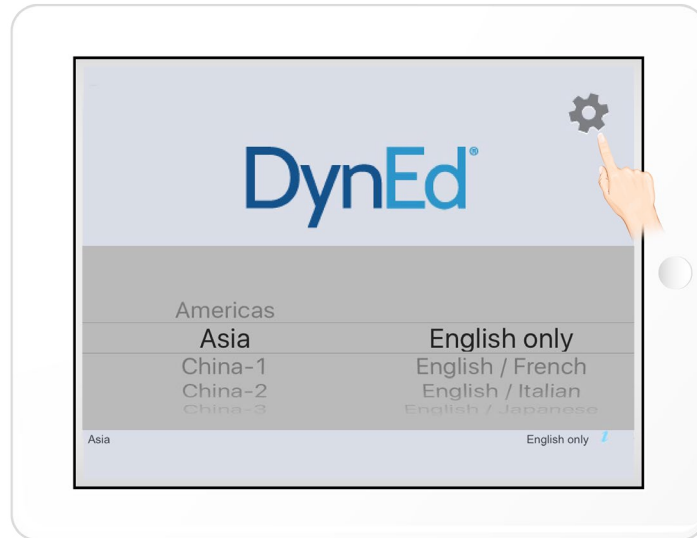

Search for "dyned"

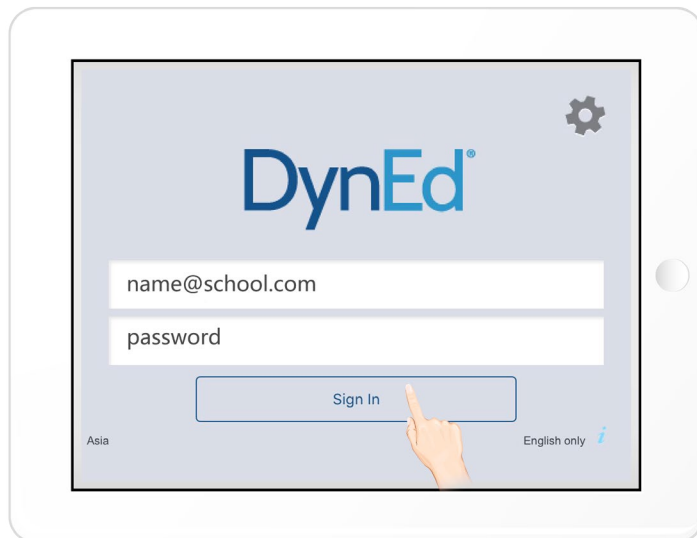

Push here to download the DynEd Pro App.

STEP 2 Choosing the Correct DynEd Server

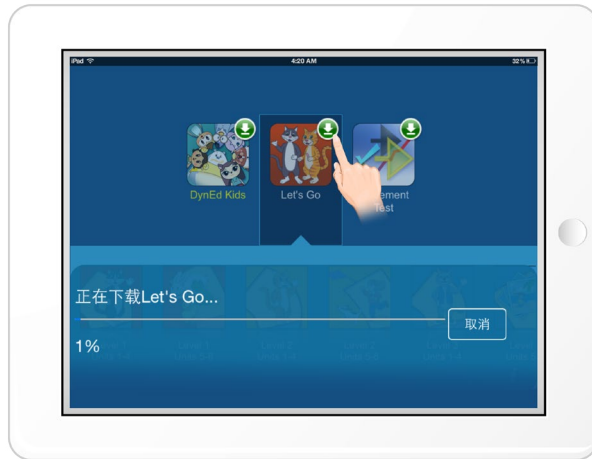

Touch the gear icon in the top right corner and then scroll to select your server. Choosing the correct server is important. If you don't know which server to use, ask your teacher. If you choose the wrong server, touch the gear again and choose the correct server. Touch the gear again to return to the login page.

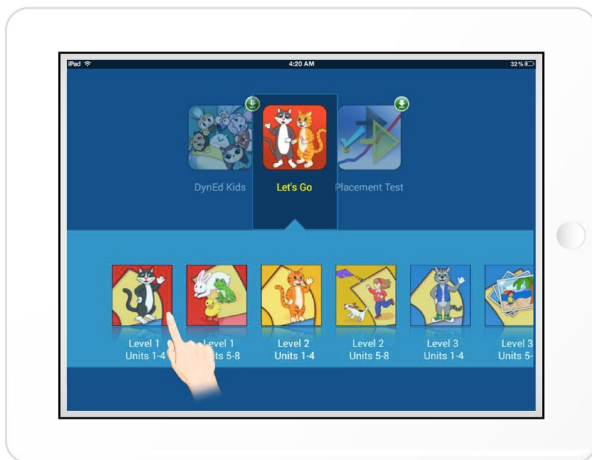

Type in your registered student ID and password.
(Get this from your teacher.)

STEP 3 Downloading DynEd Courseware

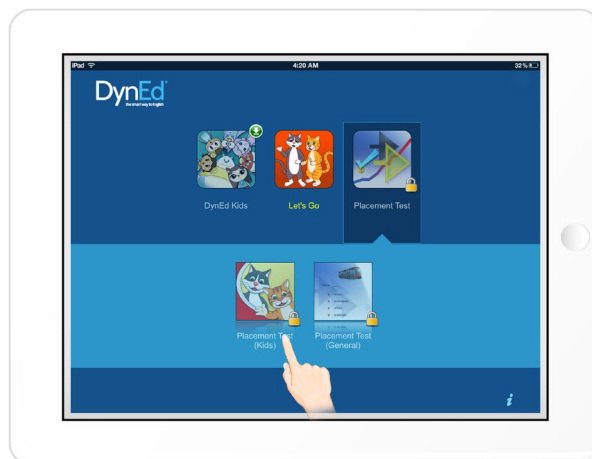

Touch the green arrow  to start the download. If the download is interrupted for any reason, when the download is next attempted, it will start where it left off.

- Let's Go is 1.24GB
- DynEd Kids is 600MB

The green arrow  will disappear once the courseware has been successfully downloaded.

There is usually no need to download the **Placement Test**. It is mostly used only in controlled conditions in a school.

STEP 4

Starting a DynEd Course and Seeing Study Progress

Touch the course,
and then the desired Unit to open it.

To see Progress bars for each lesson, push the Pause button ①, then hold down the Progress button ②.

After you release the Progress button, the Tutor will show suggestions on how to study better.
