Windows PC Guide Dyn

Finding and Downloading the DynEd Pro Windows PC Installation Files

- Click here to open the Download page in your browser.
 - Step 1: Click on the Select your Records Server... box (1) and then choose the correct server to use. (Using the correct server is important, so be sure to ask your teacher which server you should use.)
 - Step 2: Click the *Download for Windows* (2) button.
 - **Step 3:** Click the **Download** (3) button.

Note: DynEd uses **QuickTime**. If you don't already have it installed (version 7.0.4 or higher), click <u>here</u> to download the latest version.

Click the **Download** button.

Windows PC Guide Dyn

Installing DynEd Pro on a Windows PC

Double click the downloaded **DynEd Pro Icon** to open it.

Click the **Setup** button to start the installation.

Click the Install button.

Logging on and Studying DynEd

(Get this from your teacher.)

Type in your registered student ID and password. Highlight a course to download and click on OK.

Choose language.

Once course is downloaded, click to open. Choose the desired unit and enjoy!

To see Progress bars for each lesson, push the Pause button (1), then hold down the Progress button (2).

... and enjoy!

After you release the Progress button, the Tutor will show suggestions on how to study better.
